Image resolution is the detail an image holds. The term applies to raster digital images, film images, and other types of images. Higher resolution means more image detail. Image resolution can be measured in various ways. Resolution quantifies how close lines can be to each other and still be visibly resolved. Resolution units can be tied to physical sizes (e.g. lines per mm, lines per inch ...

Screenfly / Test Your Website at Different Screen Resolutions

Thanks for a VERY useful site, Carlton, which I have used several times since HD TV sets came out some years back. Just replaced a 5 year old 50" plasma set (that developed a horizontal line) with another 51" plasma set, 720p, (\$399), same brand (it was easy to put all the connections in the same places and not have to use a different remote).
