In the Source field, she has to enter the source type associated with the transaction type Miscellaneous receipt. Since no Source has been attached to the miscellaneous receipt transaction type, this field is left blank. But, the miscellaneous receipt (and in fact every miscellaneous transaction) needs to be charged to an account number.

What are COGS & DCOGS ? The purpose of this document is to explain how COGS Recognition works on Create Accounting engine. There is no Deferred COGS functionality in 11i, this functionality was introduced in R12 to be compliant with the Sarbanes-Oxley legislation, hence before R12 there is no Cogs Recognition process.
